

Quiz-app “Spot the Fake”

The app was developed together with students and teachers from both partner schools: Gymnasium Werndlpark (Steyr) and Gymnasium Geblergasse (Wien).

It can be accessed through the browser: www.spotthefake.eu and is available within the five partner countries through the Apple or Google Play store.

The app covers five topics also present within the other realised projects: “Detecting fake news”, “journalism and fake news”, “audiovisual manipulation”, “fake news in history”, “conspiracy theories”. Each chapter is divided into a “knowledge part” and a quiz part with a set of questions that students have to answer.
